AgilePM®

PM Academy is a trading name of Ennerdale Bridge Limited
Ennerdale Bridge Limited is accredited by APMG-International

Course overview

Agile Project Management is designed to support project professionals who are seeking a more adaptive and flexible approach to managing change and uncertainty within projects. The framework is highly scalable and is commonly used alongside established methodologies such as PRINCE2®.

The approach focuses on reducing project complexity by structuring work into smaller, manageable components that can be planned, developed, and reviewed iteratively as the project progresses. This enables

earlier visibility of change, more informed decision-making, and improved control over scope, cost, and delivery timelines.

The approach focuses on reducing project complexity by structuring work into smaller, manageable components that can be planned, developed, and reviewed iteratively as the project progresses. This enables earlier visibility of change, more informed decision-making, and improved control over scope, cost, and delivery timelines.

Learning objectives

By the end of this course, you will be able to:

- Develop an understanding of the Agile philosophy, core principles, and techniques commonly associated with AgilePM projects.
- Explore how AgilePM approaches can be applied across different project environments, including consideration of roles, responsibilities, governance structures, and performance measurement.
- Become familiar with key AgilePM concepts and terminology, supporting the ability to recognise, recall, and explain AgilePM principles.
- Encourage ongoing professional development by considering how AgilePM practices can be adapted to evolving project contexts and organisational needs.
- These learning objectives are intended to provide a structured overview of AgilePM concepts and support the development of informed and adaptable project management capability.

What's included

- Pre-course preparation resources
- Accredited AgilePM® Foundation training
- AgilePM® official exam(s) and AgilePM® Handbook
- AgilePM® sample exams

Exam information - Foundation
